

"Drag & Drop" Introduction

Let's see what we have in the Drag & Drop Editor so you can select the correct tools to add the contents to your page.

Menu 1. "Undo/Redo" - is used when you want to "Undo" or "Redo" what you have done on a page.

Menu 2. "Display Grid" - is used if you want to display the grid by ticking on the checkbox.

Menu 3. "Blank space" - is used when you would like to leave any space between elements on a page.

A rectangular button with rounded corners and a light grey gradient, containing the text "Blank Space".

Menu 4. "Text box" - is used for typing in text or even creating link content.

A rectangular button with rounded corners and a light grey gradient, containing the text "Textbox" and a small blue icon of a document with a pencil.

To edit text, simply click on the pencil icon or double click to open the text box. The first icon on the far side allows you to drag the element anywhere on the page you like. Click on the third icon in case you want to center the element. And click on the red "X" icon to delete the element.

Menu 5. "Optin box" - is used to create the optin form on your page. There are a total of 4 steps which you need to complete.

Step 1: Choose the "Optin List" you would like to add your clients to and then choose the "Use Connection Link" to define the node link. There are Yes1, Yes2 and Yes3 respectively. If you are using the double optin namelist (available for FusionHQ mailing service only), you will also need to choose the "Double optin link".

A screenshot of a web interface for Step 1. At the top, there are four tabs labeled "Step 1", "Step 2", "Step 3", and "Step 4", with "Step 1" being the active tab. Below the tabs, the text "STEP 1 - SELECT LIST" is displayed. To the right of this text is a button labeled "NEXT STEP >>". Below the text, there are three rows of labels and dropdown menus: "Opt-in Form" with a dropdown menu showing "monthlysubscribers", "Use connection link" with a dropdown menu showing "YES1", and "Double optin link" with a dropdown menu showing "YES2".

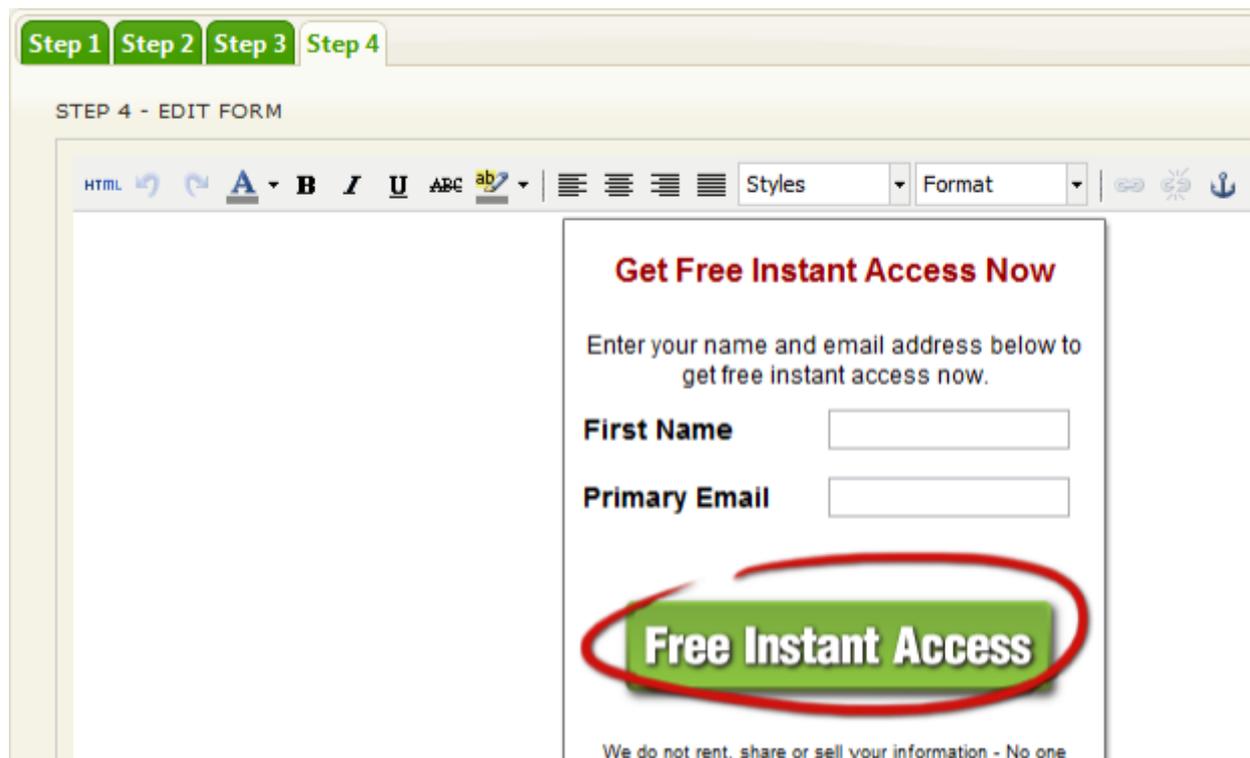

Step 2: Choose the template of your optin form.

A screenshot of a web interface for Step 2. At the top, there are four tabs labeled "Step 1", "Step 2", "Step 3", and "Step 4", with "Step 2" being the active tab. Below the tabs, the text "STEP 2 - SELECT TEMPLATE" is displayed. To the right of this text is a button labeled "NEXT STEP >>". Below the text, there is a label "Template" followed by a dropdown menu with the text "Select Opt-in Template". Below the dropdown menu, there is a red warning message: "Please beware that changing to the new template will reset all text in step4!!". Below the warning message, there are three preview boxes for different optin form templates. The first box is titled "[Clean Page]" and shows a form with a header, description, "First Name" and "Primary Email" fields, a "Show Me" button, and a privacy notice. The second box is titled "[Pure White]" and shows a similar form with a white background. The third box is titled "[Simple Sales Blue]" and shows a similar form with a blue background.

Step 3: Choose the optin button. You are also able to upload your own button if you wish. However, the maximum size of the image is 2MB.

Step 4: Edit the content in the optin template. Click "**Apply**" to save changes.

Menu 4. "Buy Now Button" - is used to allow your customers to purchase your products.

You need to choose the product and its payment, and then fill in the quantity of the product for each purchase. You can activate the shopping cart feature by checking the **"Add to cart instead of processing payment"** tickbox. Activate the **"Use connection link"** by choosing the **"Yes"** node link. You have options to display the **"Buy Now"** button in the form of an image or text link. You can also upload your own **"Buy Now"** button image if you wish. Click **"Apply"** to save any changes.

Buy Now

Buy now Button

Product: Service Charge Payment: Custom cost

Quantity: 1 Add to cart instead of processing payment

Use connection link: YES1

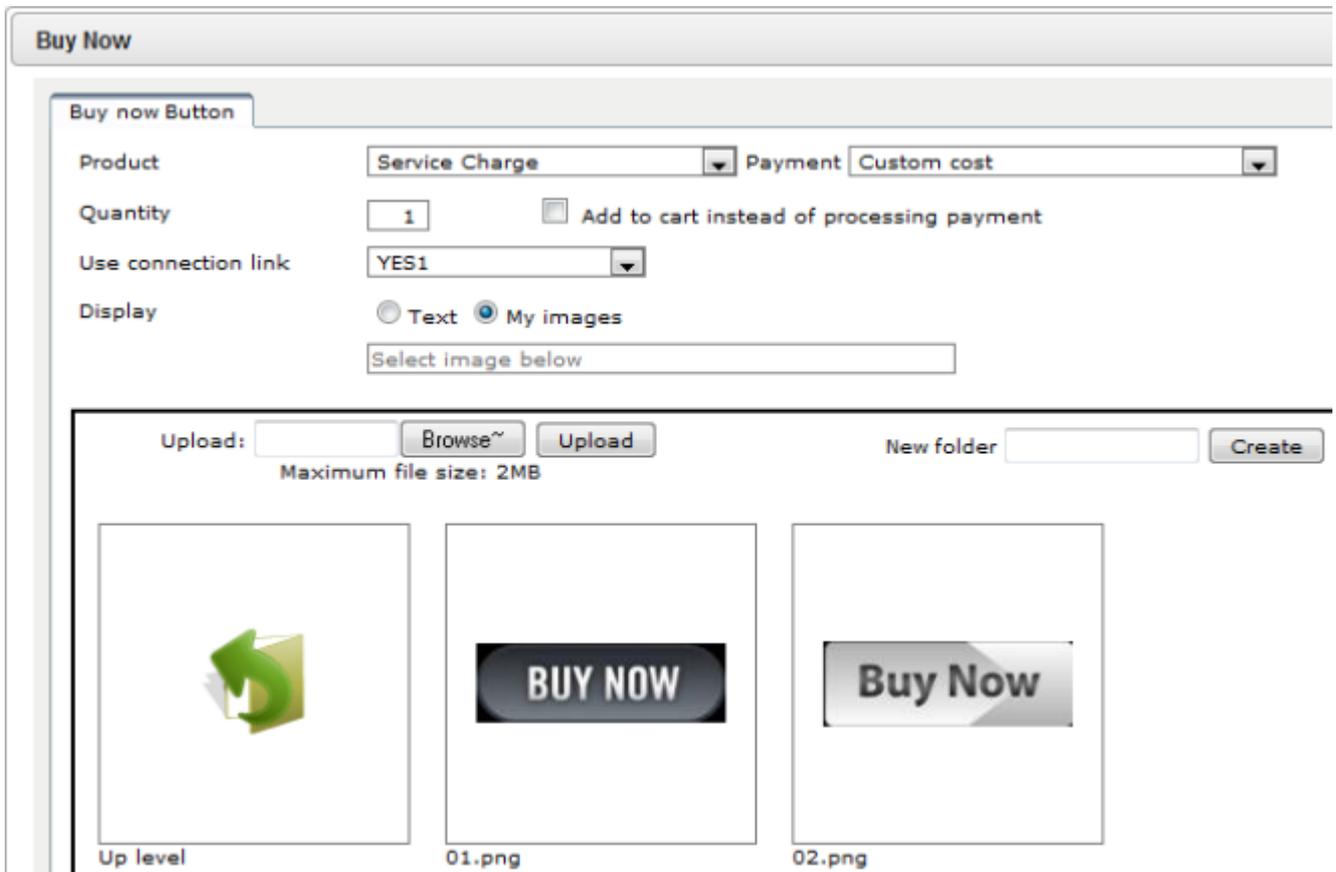

Display: Text My images

Upload: Browse~ Upload New folder Create

Maximum file size: 2MB

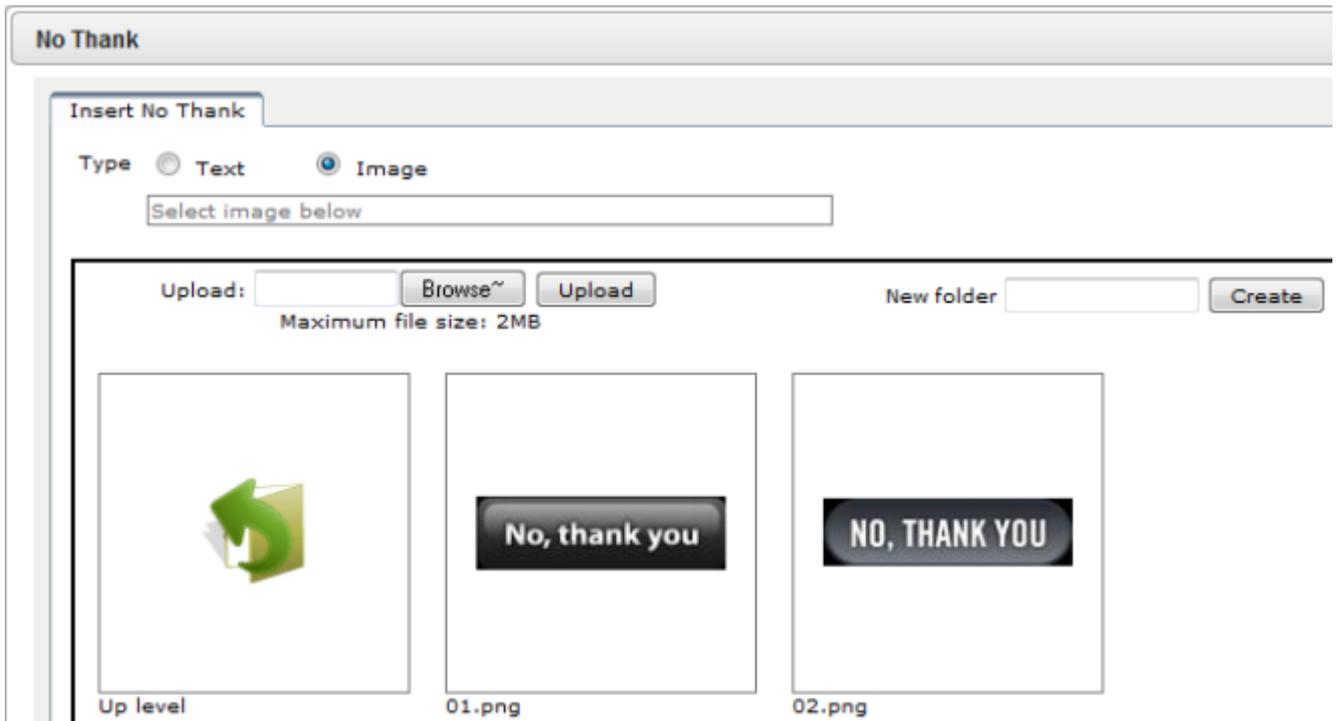

Up level 01.png 02.png

The screenshot shows a web-based configuration interface for a 'Buy Now' button. At the top, there's a header 'Buy Now'. Below it, a tabbed interface shows 'Buy now Button' selected. The form includes dropdown menus for 'Product' (Service Charge) and 'Payment' (Custom cost), a text input for 'Quantity' (1), a checkbox for 'Add to cart instead of processing payment', a dropdown for 'Use connection link' (YES1), and radio buttons for 'Display' (Text and My images, with My images selected). Below these is a text input for 'Select image below'. A file upload section follows, with 'Upload:' text, a file input, 'Browse~' and 'Upload' buttons, 'New folder' text, and a 'Create' button. Below the upload section, three image thumbnails are shown: 'Up level' (a green arrow icon), '01.png' (a dark gray button with 'BUY NOW' in white), and '02.png' (a light gray button with 'Buy Now' in dark gray).

Menu 5. "No Thanks Button" - is used to offer an option to your customers to refuse the purchase.

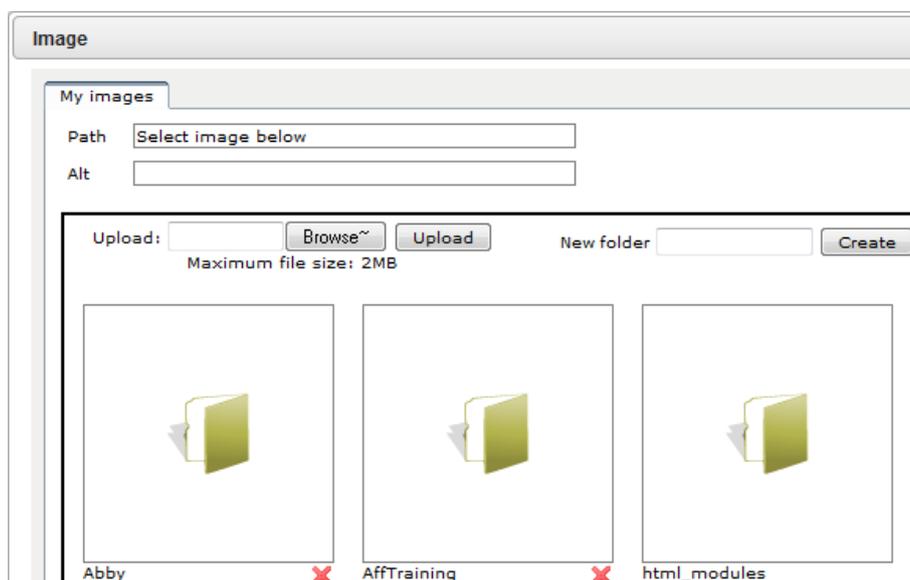

Again, you can use text or image to display this, or upload your own image.

Menu 6. "Image" - is used to insert an image into your page. Simply drag the **"Image"** menu to the page and then it will show you where you can upload the image.

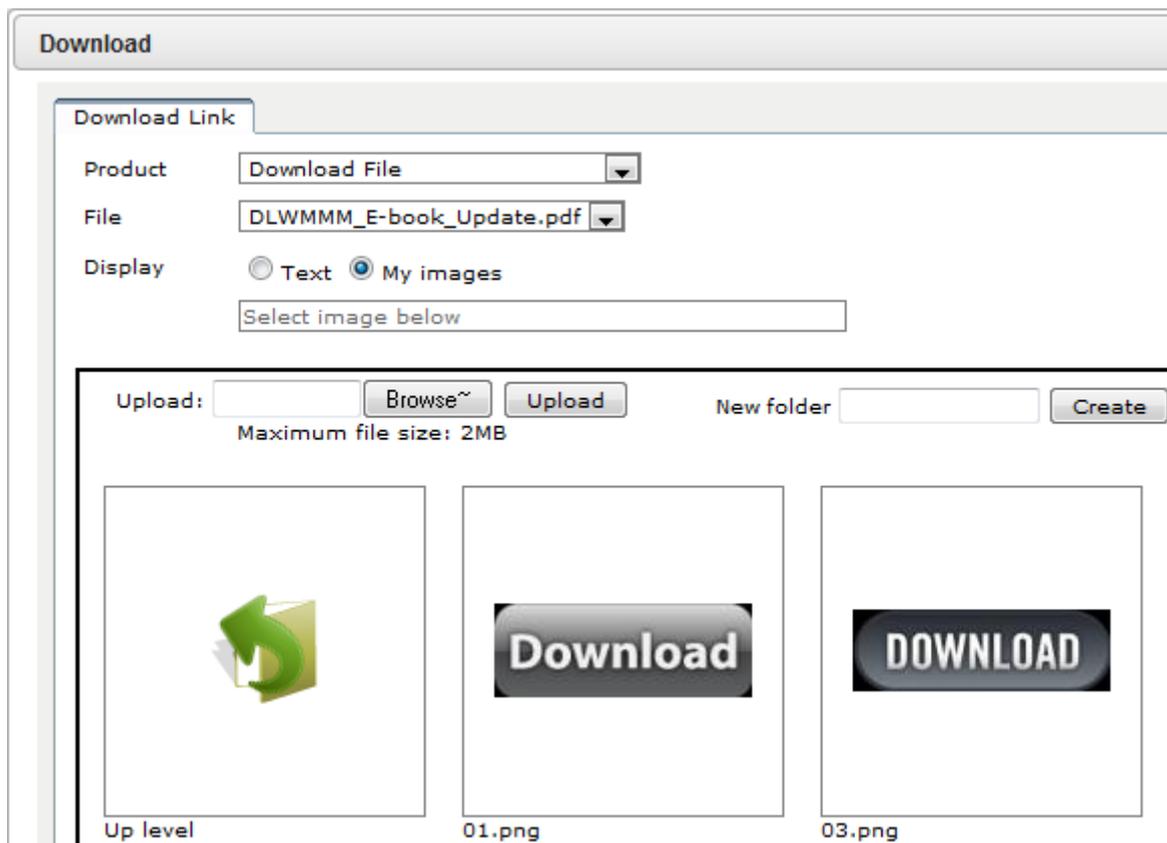

"Path" is used to see the path of your image. **"Alt"** is used to show an alternative text in case the image doesn't display properly.

Menu 7. "Download Link" - allows your clients to download any files from your website. You need to choose the product and the file name.

Again, you can display your download link by using an image or text link. You can also upload any image of your choice. Save any changes by clicking **"Apply"**.

A screenshot of a web application interface for configuring a download link. The panel has a title bar labeled "Download". Below the title bar is a tab labeled "Download Link". The configuration area includes:

- A "Product" dropdown menu with "Download File" selected.
- A "File" dropdown menu with "DLWMMM_E-book_Update.pdf" selected.
- A "Display" section with two radio buttons: "Text" (unselected) and "My images" (selected).
- A text input field containing "Select image below".
- An "Upload" section with a text input field, a "Browse~" button, and an "Upload" button. Below this is the text "Maximum file size: 2MB".
- A "New folder" section with a text input field and a "Create" button.
- A gallery of three image thumbnails:
 - The first thumbnail shows a green 3D arrow pointing up and to the right, labeled "Up level" below it.
 - The second thumbnail shows a dark gray button with the word "Download" in white, labeled "01.png" below it.
 - The third thumbnail shows a dark gray button with the word "DOWNLOAD" in white, labeled "03.png" below it.

Menu 8. "Page Element" - is made up of different modules inside. We have **"Add-ons"**, **"Bonus Box"**, **"Shopping Cart Widget"**, **"Guarantee Box"**, **"Johnson Box"** and **"Testimonial Box"**. Click on each module to see its subsidiaries.

"Add-ons" contains "Affiliate Sign Up Form", "Disqus", "Facebook" and "Login Box".

Insert Module

--	--	--

Click "**Shopping Cart Widget**" to see the widget in various interfaces.

Click "**Guarantee Box**" to see the guarantee seal in several styles. Take your pick!

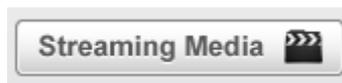

"**Johnson Box**" is where you can put anything you like inside. It can make your page stand out more by inserting a quote, bullets or short message about your product.

Use a **"Testimonial Box"** to give social proof and make your site more professional. Many people like to see feedback from existing customers.

Menu 9. All FusionHQ members can display their video or audio through our **"Streaming Media"** feature.

Choose **"Uploading Video"** if you would like to display your video or choose **"Uploading Audio"** to display audio.

In the **"Uploading Video"** section, you can choose your own video skin. You can also use a **"Fixed"** dimension or customize your preferred size.

If you are a member of "**Amazon S3**", you will be able to choose the folder and file name in your S3 account directly from our "**Streaming Media**". Or if you have subscribed to our hosting service which also allows you to use the cloud file service of "**Rackspace**", you'll be able to upload the file directly from us - there's no need to use the URL. If you don't subscribe to our hosting or are not a member of "**Amazon S3**", you'll be able to insert the URL of you video link in the "**URL**" input box. For YouTube, use the URL from your browser.

S3

Uploaded Stream Media URL CDN [Upload new video file](#)

URL (MP4, FLV, H.264, Youtube URL)

You can check the "**Auto Start**" tickbox in case you want your video to automatically run when the page is accessed. Tick "**Disable Control Bar**" if you'd like to hide the menu bar at the bottom of the video screen.

Auto Start

Disable Control Bar

If you don't want to use the FusionHQ logos as your start image you can use your own image. Click, "**Pre-start Image**".

Pre-start Image (Optional) [Browse](#) [Clear Thumbnail](#)

Skin Template (Optional) [Browse](#) [Use Default Template](#)

Inside the "**Uploading Audio**" function, you can only insert the URL of your audio file - which needs to be in mp3 or AAC format. Tick the "**Auto Start**" box if you would like the file to automatically run when it is accessed.

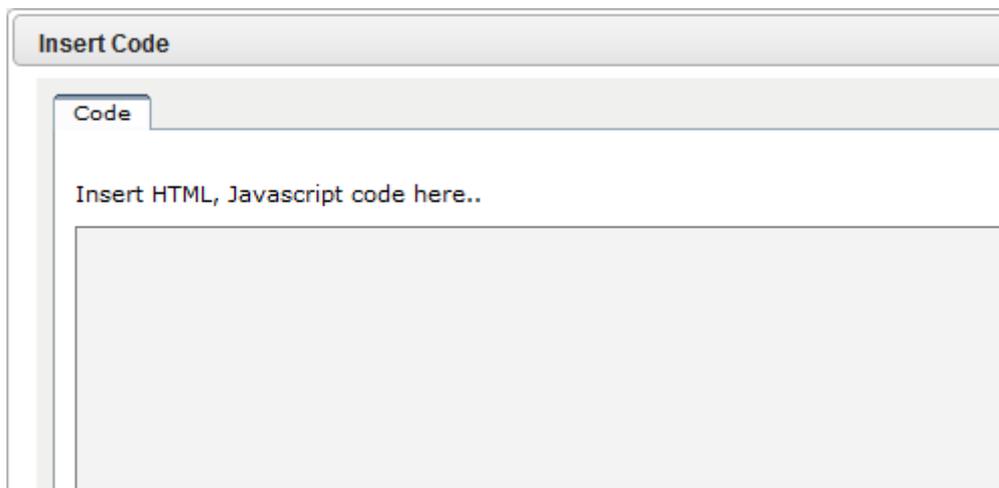

Uploaded Audio URL (MP3, AAC)

Auto Start

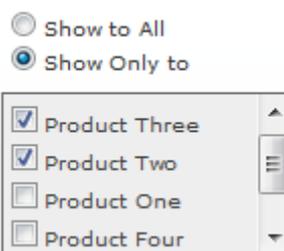

Menu 10. "Insert Code" is an option for techie's or those who know what they're doing with code.

Use this feature whenever you would like to insert your own script code, html code or any kind of code on your page. Ensure that you use the correct code as not all types are supported.

Once you've finished inserting the element(s) on a page, you have more great options. Click once on an element and look to your left - here you'll see your options. Tick "**Show to All**" to allow everyone to see this element. Tick "**Show Only to**" and then choose from the drop-down menu which people only, can see this element.

Click "**Duplicate**" to copy exactly, the element you've selected with a single click. You can also align each element to the left, right or centre of a page.

Type in a specific pixel number in the "W" & "H" to specify the exact width and height. Use the delay option to customize the time to be shown in your page. Or use the remove option to hide the element after the specified time has passed.

W	<input type="text" value="660"/>	px	H	<input type="text" value="40"/>	px
Delay for	<input type="text"/>	S			
Remove after	<input type="text"/>	S
