

Duplicate the Free Template

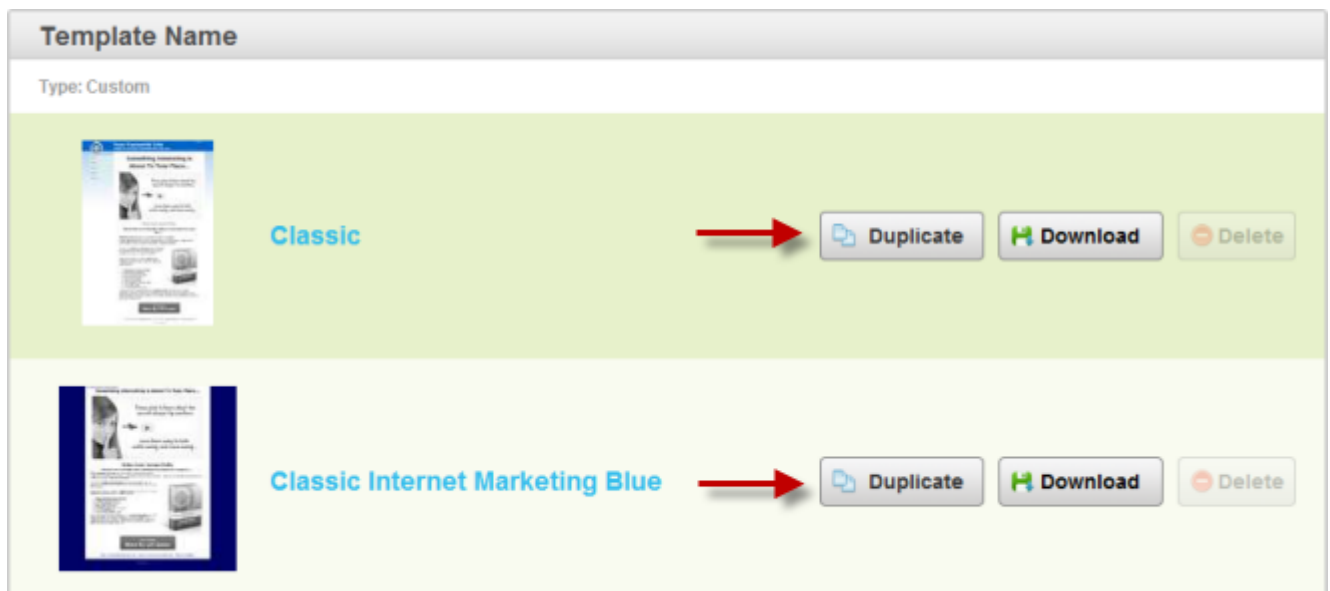

You are not able to edit the free default templates. But somehow, if you need to adjust something, you need to duplicate the template and then customize its copy version.

Here's how:

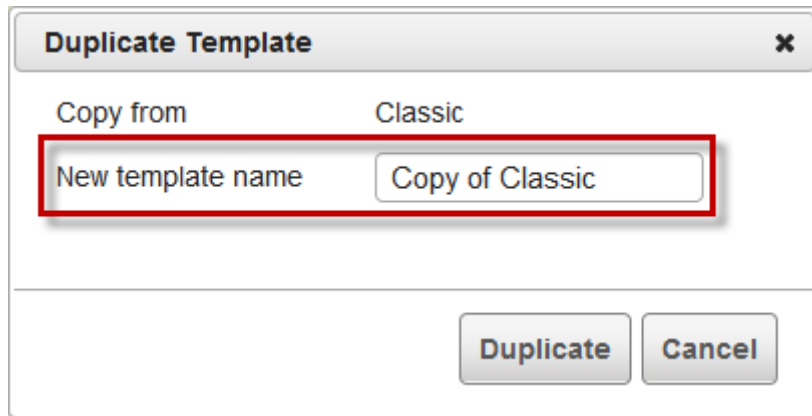

Step 1: Go to "Sites" then click "Site Templates".

Step 2: Choose the free template which you want to wor on and click "Duplicate" button.

Step 3: Give a name to the duplicated template and click "**Duplicate**" button again.

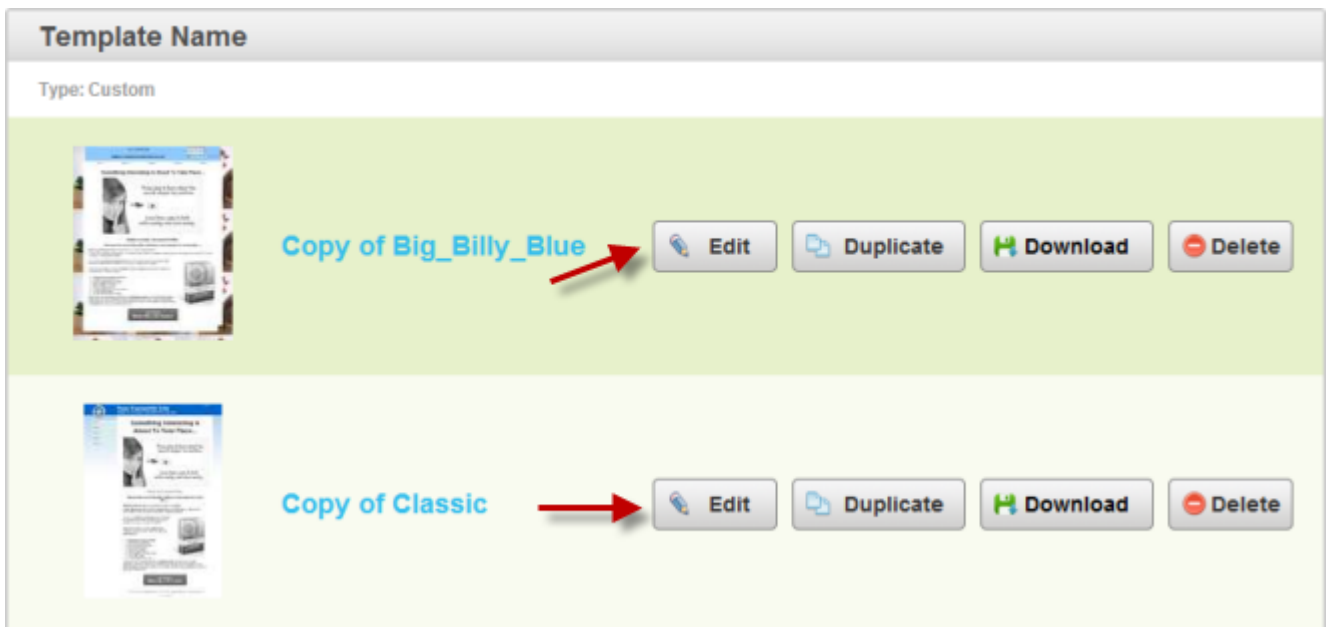

Duplicate Template [X]

Copy from: Classic

New template name: Copy of Classic

[Duplicate] [Cancel]

Step 4: The template is now duplicated. If you wish to customize it, only click "**Edit**" button.

Template Name

Type: Custom

Copy of Big_Billy_Blue [Edit] [Duplicate] [Download] [Delete]

Copy of Classic [Edit] [Duplicate] [Download] [Delete]

After you finish customizing it, only apply this copy version to your website.
