

How to Add An Image to the Mailing Message

If you want to insert an image or a logo to your broadcast message, you need to use a small code.

Please follow the instructions below.

Step 1: Go to "Autoresponders" and "E-mail Broadcast" or "Autoresponders" to create a message.

Step 2: Type in your message.

Name

Subject + Insert (FIRSTNAME)

Content Plain Text HTML

Hey {FIRSTNAME}

So we're finally opening the doors for FusionHQ in 2 hours (8pm EDT).

The pre-launch page will still be there and everything will still be tracked. We'll continue following up those leads for you so don't worry about that.

As for launch (in 2ish hours...)

You have 2 options:

1. Promote direct to the sales page
2. Promote to the training/sales video to presell them

Optin List 3waysin3days all

Step 3: Switch the message to the "HTML" version.

Step 4: Click on the "HTML" icon. It's at the left corner.

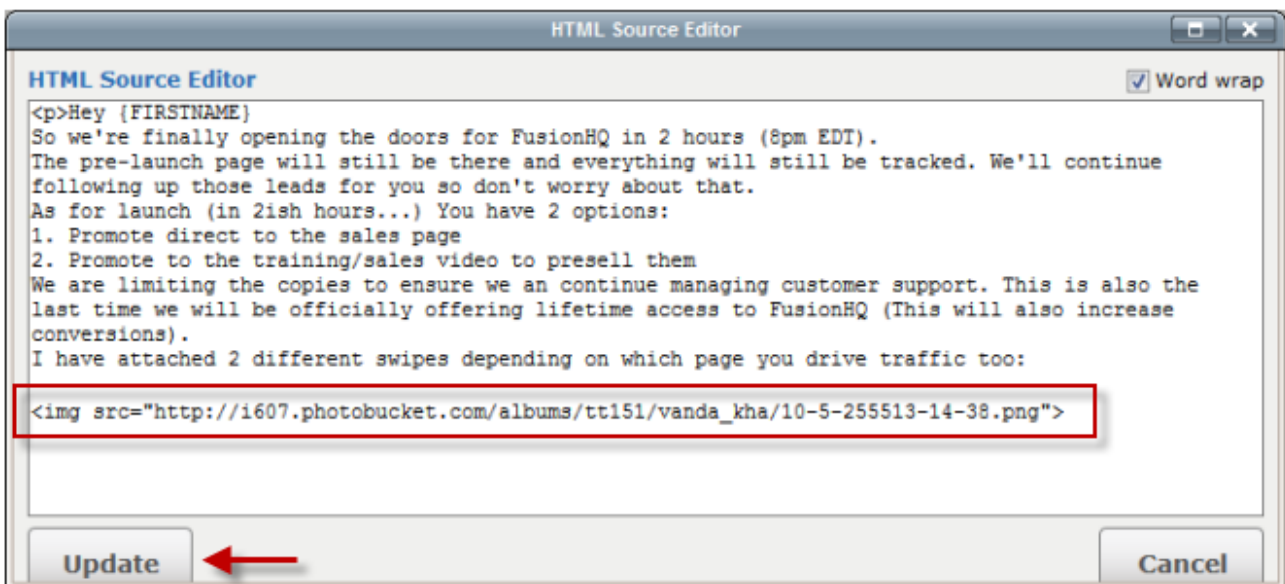

Step 5: insert this code to the content where you want to insert the image: ``.

Step 6: Replace the "THE-URL-OF-YOUR-IMAGE" with the url of your image.

For example, ``.

The url should be ended with .jpg, gif or png. Next, click "Update".

Step 7: The image will show up.
