

# How to Change the Name of Your Page

You can change or edit the name of your page even after you have created it.

Here's how:

**Step 1:** Go to your "Sales Funnel" or "Content Site". Click the edit button or the funnel/content name of the "Sales Funnel" or "Content Site" that you want to edit.

The screenshot shows the FusionHQ dashboard with the 'Sites' tab selected. Below the navigation bar, there is a search bar and a 'Start New Funnel' button. A table lists several funnels with columns for 'Funnel Name', 'Views', and 'Sales'. Each row has an 'Edit' button (pencil icon), a 'Duplicate' button, and a 'Delete' button. A red arrow points to the 'Edit' button for the 'tutorials' funnel.

Both windows have a yellow background and contain text like 'OTO XXX' and 'Total: 1'. At the bottom of each window, there is a toolbar with icons for delete, check, link, search, and edit (pencil). A red arrow points to the pencil icon in the bottom right corner of each editor.

**Step 3:** Click "Options" tab.

**Step 4:** Enter the new name in the "Page Name" text box.

It contains several fields: "Page name" with the text "freeproduct" and a red arrow pointing to it; "Page category" with a yellow color swatch and the text "Yellow"; "Url type" with two radio buttons, "Encrypt" (selected) and "Slug"; "Split Test A:" with a "Template" dropdown menu showing "Hidden Template" and a ">>" button.
