

How to Change the Start Page of Your Website

You can change the starting page of your website anytime you want. The **"Start Page"** is the page that people first see when they open your url.

Here's how:

Step 1: Go to your **"Sales Funnel"** or **"Content Site"**. Click the edit button or the funnel/content name of the **"Sales Funnel"** or **"Content Site"** that you want to edit.

The screenshot shows the FusionHQ dashboard with the 'Sites' menu selected. Below the menu is a search bar and a 'Start New Funnel' button. A table lists several funnels with columns for 'Funnel Name', 'Views', and 'Sales'. Each row has 'Edit', 'Duplicate', and 'Delete' buttons. A red arrow points to the 'Edit' button for the 'Test Page' funnel.

Funnel Name	Views	Sales	Actions
Test Page http://www.yourxlr8er.com/	172	0	Edit Duplicate Delete
tutorial http://www.yourxlr8er.com/tutorial	2	0	Edit Duplicate Delete
MDT Giveaway Funnel http://mymdt.yourxlr8er.com	4	0	Edit Duplicate Delete

Step 2: Click **"Options"** tab on the upper right side of your page.

The screenshot shows the top navigation bar of the FusionHQ dashboard. The 'Options' tab is selected and highlighted. A red arrow points to the 'Options' button. Other tabs include 'New Page', 'Preview', 'Export', 'Upload', and 'Close'. Below the navigation bar are buttons for 'Show', 'Stat', and 'OTO'.

Step 3: Choose the new start page in the dropdown element of "Start Page" seen in Funnel/Content Site Options.

The screenshot shows a 'Funnel Settings' form with the following fields:

- Funnel Name:** My Sample Page
- Language:** English
- Start Page:** Start (highlighted with a red box)
- Default Template:** Earth Green
- Apply this template to all pages

Step 4: Click "Save".

Step 5: Then you can see that the "Start Page" is now changed. The "Start" notification is at the bottom left side of the page.
