

How to Change the Template of Your Website

You can change the template of your **"Sales Funnel"** or **"Content Site"** anytime you want.

Here's how:

Step 1: Go to your **"Sales Funnel"** or **"Content Site"**. Click the edit button or the funnel/content name of the **"Sales Funnel"** or **"Content Site"** that you want to change the template.

The screenshot shows the FusionHQ dashboard with the 'Sites' tab selected. Below the navigation bar, there is a search input field and a 'Start New Funnel' button. A table lists several funnels with columns for 'Funnel Name', 'Views', and 'Sales'. Each row has 'Edit', 'Duplicate', and 'Delete' buttons. A red arrow points to the 'Edit' button for the 'Test Page' funnel.

Step 2: Click **"Options"** tab.

The screenshot shows a toolbar with several buttons: 'New Page', 'Preview', 'Options', 'Export', 'Upload', and 'Close'. A red arrow points to the 'Options' button. Below the toolbar, there are three buttons: 'Show', 'Stat', and 'OTO'.

Step 3: In "Funnel Options", choose a new template design in "Default Template" dropdown. If you want to see the preview of the template, just click on the button with double arrows. You can tick the "Apply this template to all pages" if you want this template to be used in all your pages.
