

How to Create An Optin Page in the Sales Funnels

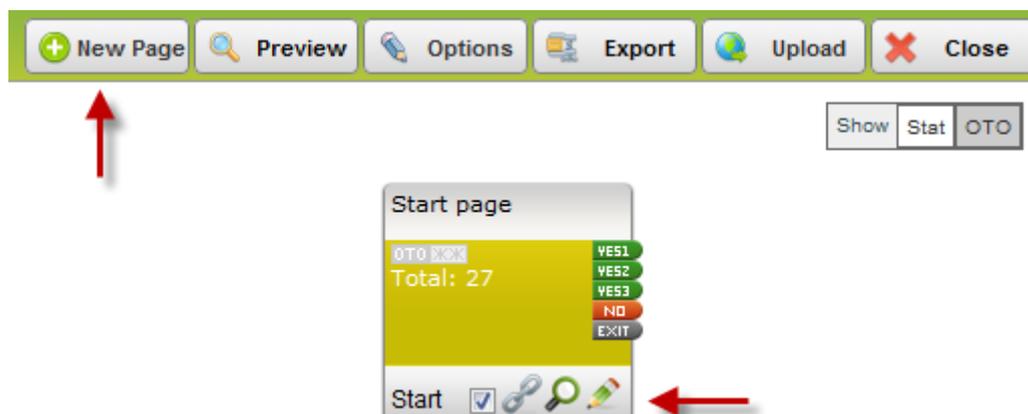

Assuming that you have already created an optin list/form and you want to use it in your sales funnel, then here's how you can create an optin page.

Step 1: Go to "Sites" and click "Sales Funnels". Enter a new funnel name and click "Start New Funnel" if you want to create a new funnel. Else you can just click the "Edit" button of the "Sales Funnels" that you want to create the optin page in.

Funnel Name	Views	Sales			
Test Page http://www.yourtriber.com/	174	0	Edit	Duplicate	Delete
tutorial http://www.yourtriber.com/tutorial	2	0	Edit	Duplicate	Delete
MDT Giveaway Funnel http://mymdt.yourtriber.com	6	0	Edit	Duplicate	Delete

Step 2: Once you're in the funnel map, click on "New" button if you want to put your optin form in a new page or click the pencil icon of any of your existing pages.

Start page

DT0 XXX
Total: 27

YES1
YES2
YES3
NO
EXIT

Start  

Step 3: Drag the "Optin Box" element from the Drag & Drop menu into your page.

Step 4: Choose your "Opt-in" list from the dropdown element. In the "Use Connection", select "YES1", "YES2", or "YES3". This node will be linked/connected to the next page that you want your customers to be redirected to after they have opted in. If you select the optin form of the external mailing provider (ie. Aweber, Getresponse or Mailchimp), you will find the "Use connection" option only.

Element Options

Opt-in

Use connection

Template

Button

Add field (** required field)

Firstname

Email**

Step 5: If you select the optin form of FusionHQ mailer, you will find the **"Double optin link"**. This node will be linked/connected to the page that your customers will be redirected to after they have confirmed your list. You can select **"YES1"**, **"YES2"**, or **"YES3"**. It could be the same link/page with the **"Use connection"** if you want.

Element Options

Opt-in: july event form

Use connection: YES1

Double optin link: YES2

Template: [Clean Page] Browse

Button: /img_optin/fia_r.pl Browse

Add field (** required field)

- Firstname**
- Email**

Step 6: Now select your **"Template"** from the dropdown box or just click **"Browse"**. The preset will show on the right side. Select any template of your choice.

Element Options

Opt-in: july event form

Use connection: YES1

Double optin link: YES2

Template: [Clean Page] Browse

Button: /img_optin/fia_r.pl Browse

Add field (** required field)

Step 7: Next, select the button that you are going to use for this optin form by clicking the "**Browse**" button. You have an option to upload your own optin image.

The screenshot shows two panels. The 'Element Options' panel on the left has the following settings: 'Opt-in' set to 'july event form', 'Use connection' set to 'YES1', 'Double optin link' set to 'YES2', 'Template' set to '[Clean Page]' with a 'Browse' button, and 'Button' set to './img_optin/freeins' with a 'Browse' button. Below these is the 'Add field (** required field)' section with checkboxes for 'Firstname**' and 'Email**'. A red arrow points to the 'Browse' button next to the 'Button' field. The 'Browse File' panel on the right shows an 'Upload' section with a 'Browse...' button and an 'Upload' button. Below this, it shows the current directory as './img_optin' and a grid of image thumbnails. One thumbnail is highlighted with a red arrow, showing a 'Free Instant Access' button.

Step 8: And for the "Add Field" part, just tick the box of the field that you want to have in your optin form. You cannot skip the "required field". To add/remove the fields, you need to do it in the "Optin Forms" section. You can drag and rank the fields to the new order.

The screenshot shows the 'Element Options' panel on the left and a preview of the optin form on the right. In the 'Element Options' panel, the 'Add field (** required field)' section is highlighted with a red box, showing checkboxes for 'Firstname**', 'Email**', 'Address', and 'City Code'. A red arrow points from this section to the preview. The preview shows a form with the title 'Get Free Instant Access Now', a subtitle 'Enter your name and email address below to get free instant access now.', and three input fields labeled 'Firstname', 'Email', and 'Address'. Below the input fields is a yellow 'Free Instant Access' button and a disclaimer: 'We do not rent, share or sell your information - No one likes SPAM.'

Step 9: After you have chosen everything, you can also edit the optin form in the editing area. You can change the fonts, colors etc. Click "**HTML**" if you want to customize coding.

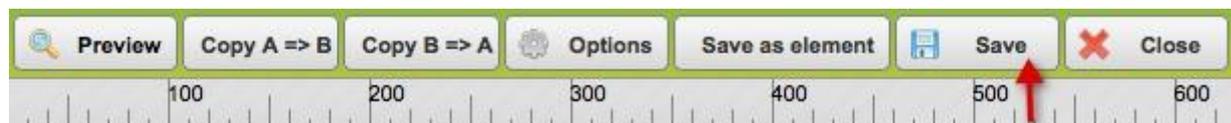

The image shows a toolbar at the top with various icons for text formatting (bold, italic, underline, link, unlink, list, indent) and a dropdown menu for styles. The 'HTML' icon is highlighted with a red arrow. Below the toolbar is a preview of a form titled "Get Free Instant Access Now". The form contains three input fields labeled "Firstname", "Email", and "Address", and a yellow button labeled "Free Instant Access". At the bottom of the form, there is a disclaimer: "We do not rent, share or sell your information - No one likes SPAM." Below the preview, the path "Path: p" is displayed.

Step 10: Click "**Apply**" after everything's set.

Step 11: Click "**Save**".

Step 12: Then go to the Funnel map and link the Yes 1 & Yes 2 according to the "Use Connection" & the "Double optin link" that you have selected.
