

# How to Edit the Images

You are now able to put the graphic of your images in FusionHQ so you can create a page a lot easier.

Here's how:

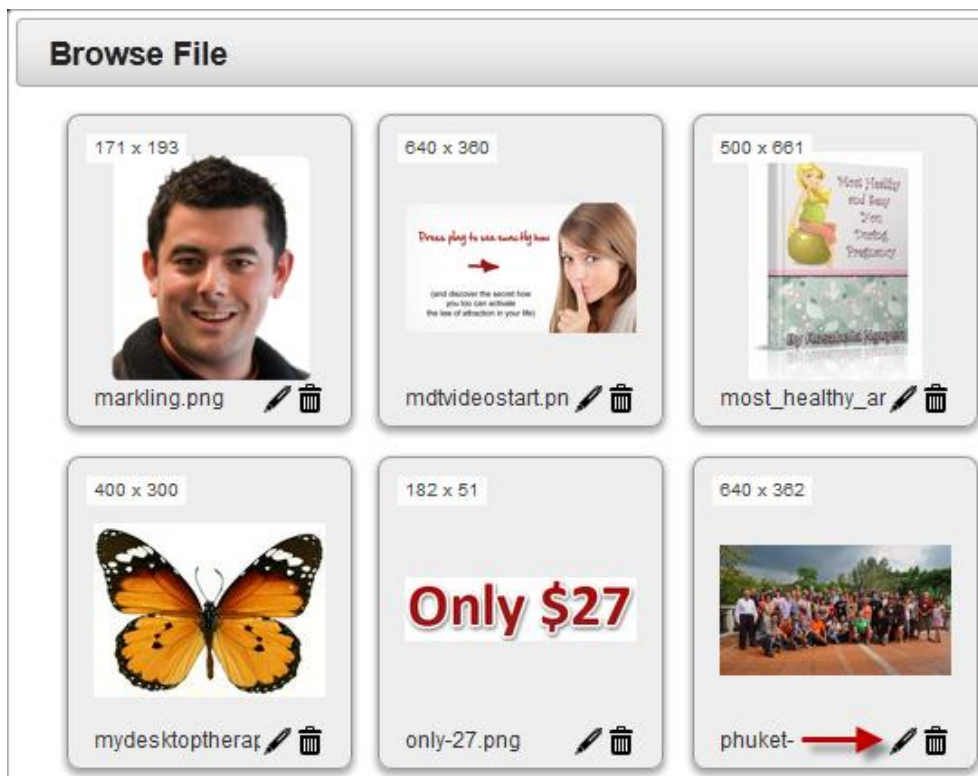

**Step 1:** Go to the page which you want to resize the image.

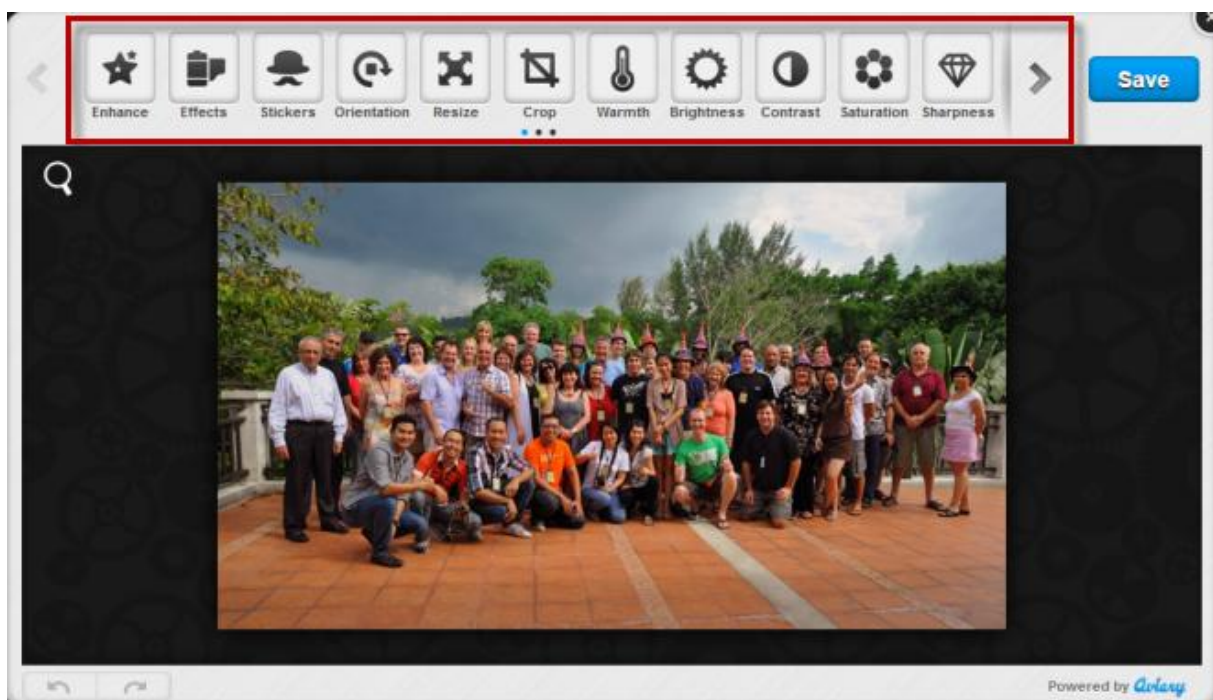

**Step 2:** Drag the "Image" button to the content area.

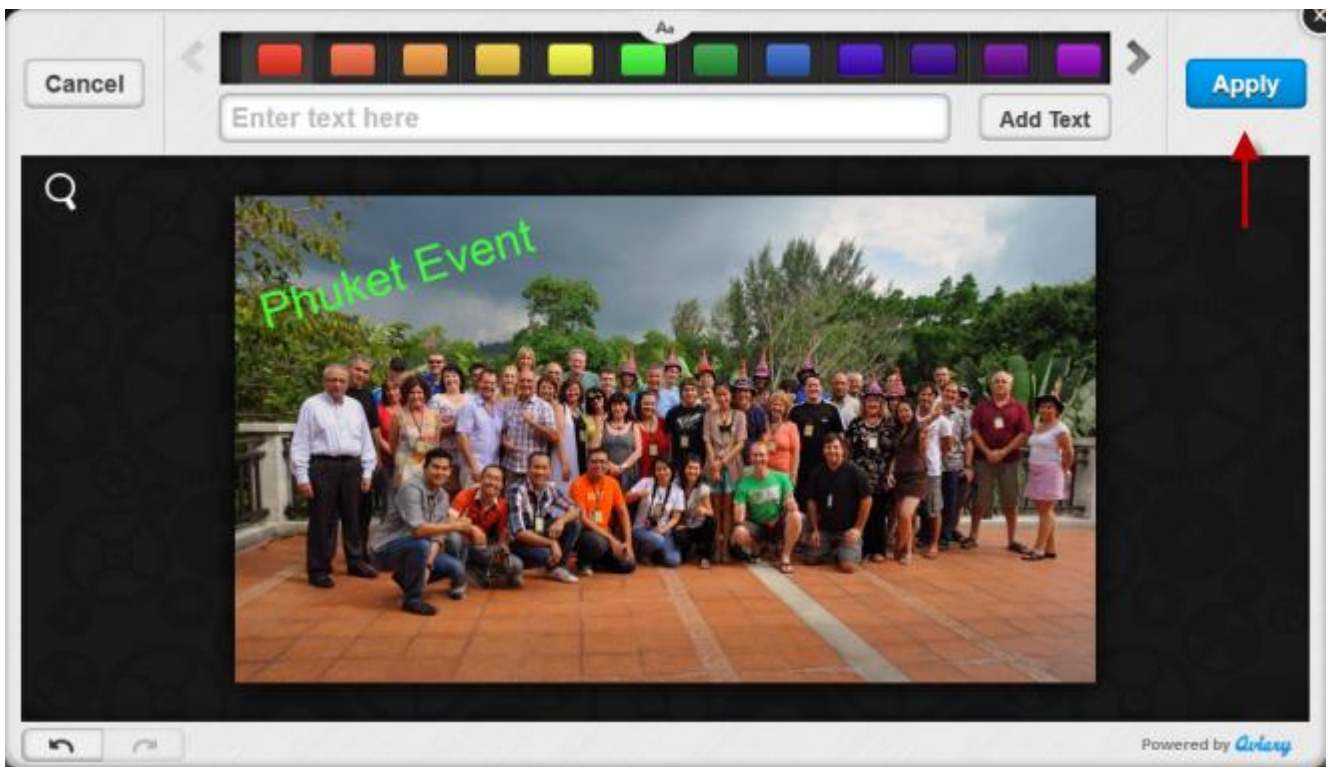

**Step 3:** Browse for the image which you want to resize. Click the pencil icon.

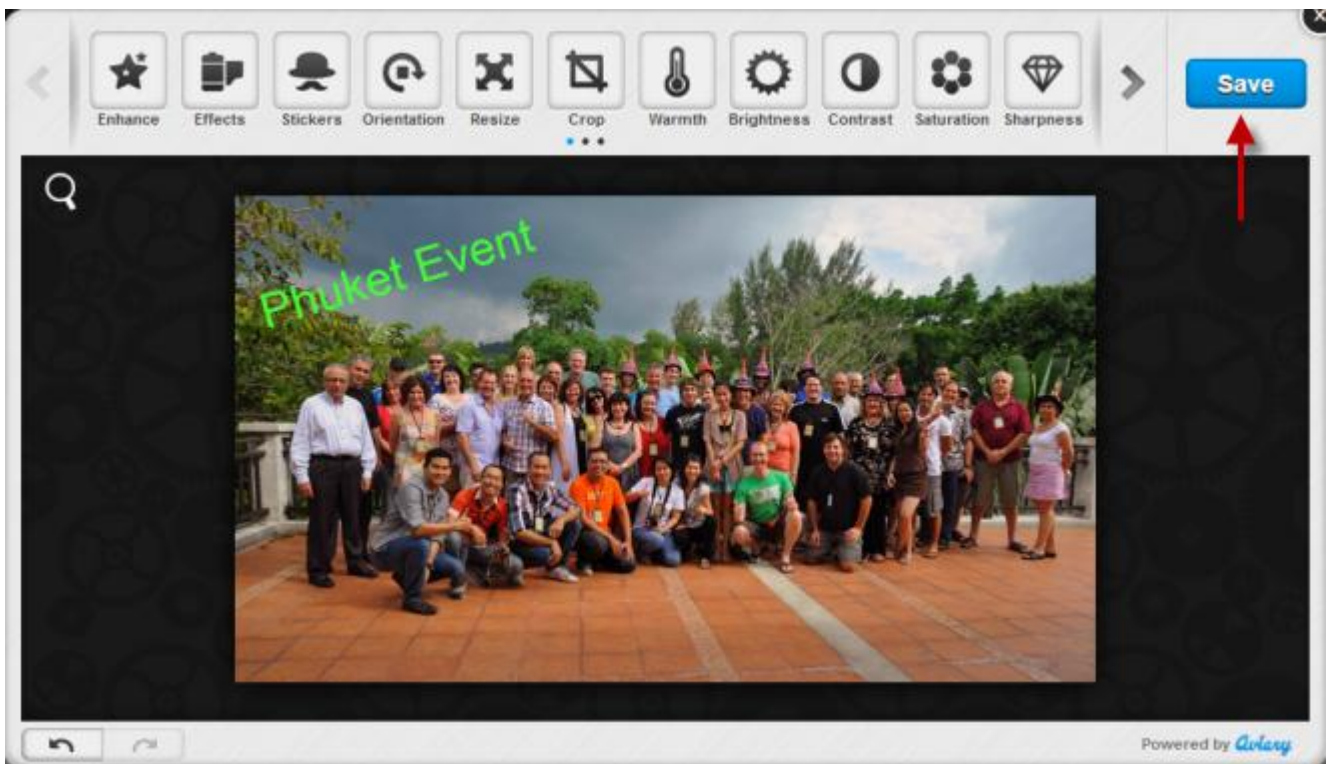

**Step 4:** Select the tool from the upper menu. You can resize, crop, change the image theme, write some text, etc.

**Step 5:** When you finish each option, click "Apply".

**Step 6:** Now the size of your image is changed. Click "Save".

**Step 7:** Click "**Close**" to go back to the folder where your image is stored. If you want to resize another image, click "**Resume**".
