

# How to Export Your Website

This is how you can export your website in case you want to save it for later use or just keep a safe copy if you accidentally deleted your site. The system will create a zipped file of all the contents of your site.

**Step 1:** Go to your "Sales Funnel" or "Content Site". Click the edit button or the funnel/content name of the "Sales Funnel" or "Content Site" that you want to export.

The screenshot shows the FusionHQ dashboard with the 'Sites' tab selected. Below the navigation bar, there is a search input field and a 'Start New Funnel' button. A table lists several funnels with their names, URLs, views, and sales. To the right of each row are buttons for 'Edit', 'Duplicate', and 'Delete'. A red arrow points to the 'Export' button in the top right corner of the table area.

Funnel Name	Views	Sales	Actions
Test Page <a href="http://www.yourxlr8er.com/">http://www.yourxlr8er.com/</a>	172	0	Edit Duplicate Delete
tutorial <a href="http://www.yourxlr8er.com/tutorial">http://www.yourxlr8er.com/tutorial</a>	2	0	Edit Duplicate Delete
MDT Giveaway Funnel <a href="http://mymdt.yourxlr8er.com">http://mymdt.yourxlr8er.com</a>	4	0	Edit Duplicate Delete

**Step 2:** Click "Export" tab.

The screenshot shows the FusionHQ toolbar with buttons for 'New Page', 'Preview', 'Options', 'Export', 'Upload', and 'Close'. A red arrow points to the 'Export' button. Below the toolbar are buttons for 'Show', 'Stat', and 'OTO'.

**Step 3:** The system will then create a zipped file of all the contents of your site.

The screenshot shows a macOS Downloads window with a single file: 'b76c92459858576e9df6ea66d8601ae2\_export.zip'. The file size is 1.7 MB and it was downloaded from fusionhq.com at 12:05 PM.
