

How to Make An Image Link to A URL (1)

If you want to know how to link an image to URL, we show you how...

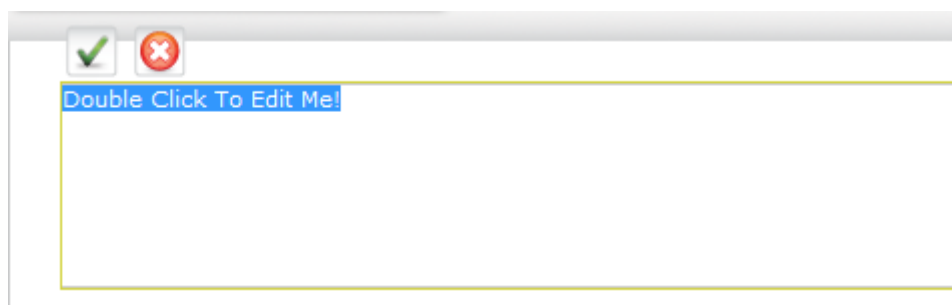

Step 1: Open the page that you would like to add your image link to by clicking on the edit button.

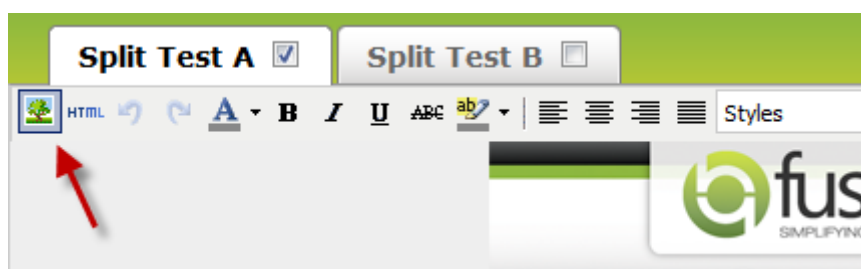

Step 2: Drag the "Textbox" from the Drag and Drop menu onto your page.

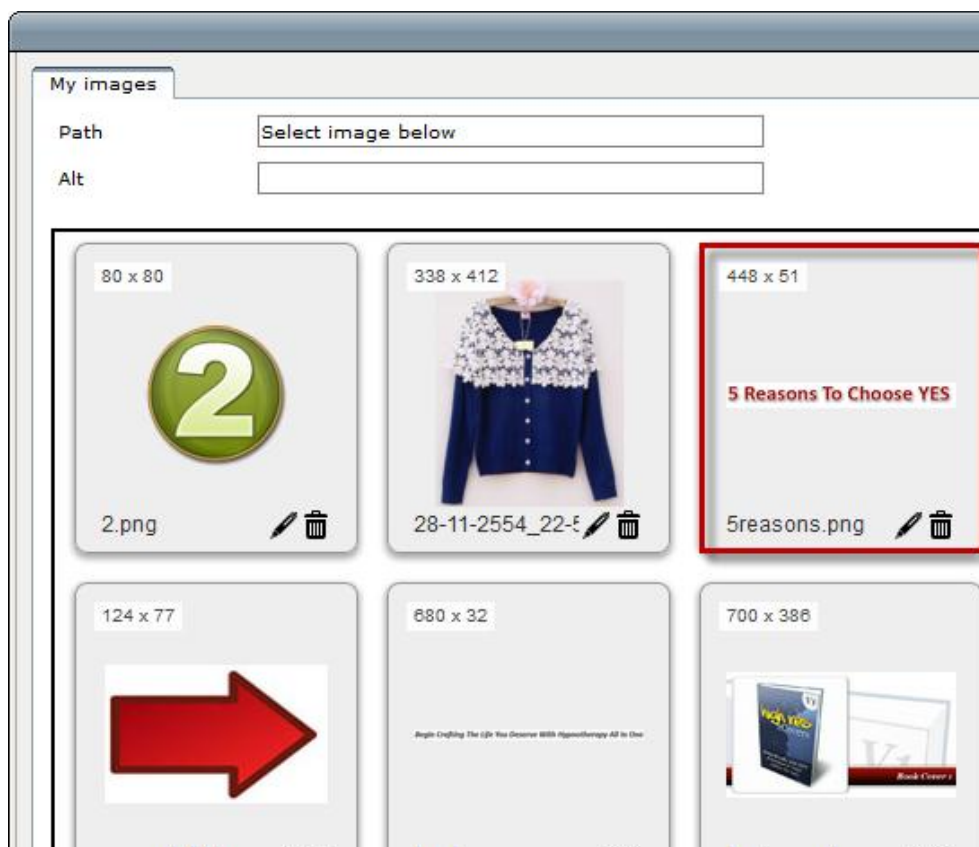

Step 3: Open the text box and delete the default text.

Step 4: Click on the "image" icon on the left side of the menu bar to open "Insert My Image".

Step 5: Select the image and then click "Insert".

Step 6: One click on the image to activate the link icon (*chain icon*) in the middle of the menu bar.

Step 7: Type in the URL you would like to be redirect to inside the "Link URL" box. Click "Insert" to finish.
