

How to Set Up Your Account

You can set up the preference of your FusionHQ account at "**Settings**" seen on the top right corner of FusionHQ page.

Expand the "**Package**" section to see your package details. Here you can see what package you have and the additional hosting and CDN. You can also see how many subscribers you can only have as well as the disk usage. You can cancel your subscription with FusionHQ by clicking the "**Un-Subscribe**" button. To add credits to your account, just click the "**Add Credits**" button. This credit is usually used to buy a domain from us.

▼ **Package**

Your package is Professional Plus account
