

How to Use Infusionsoft's Autoresponder with FusionHQ

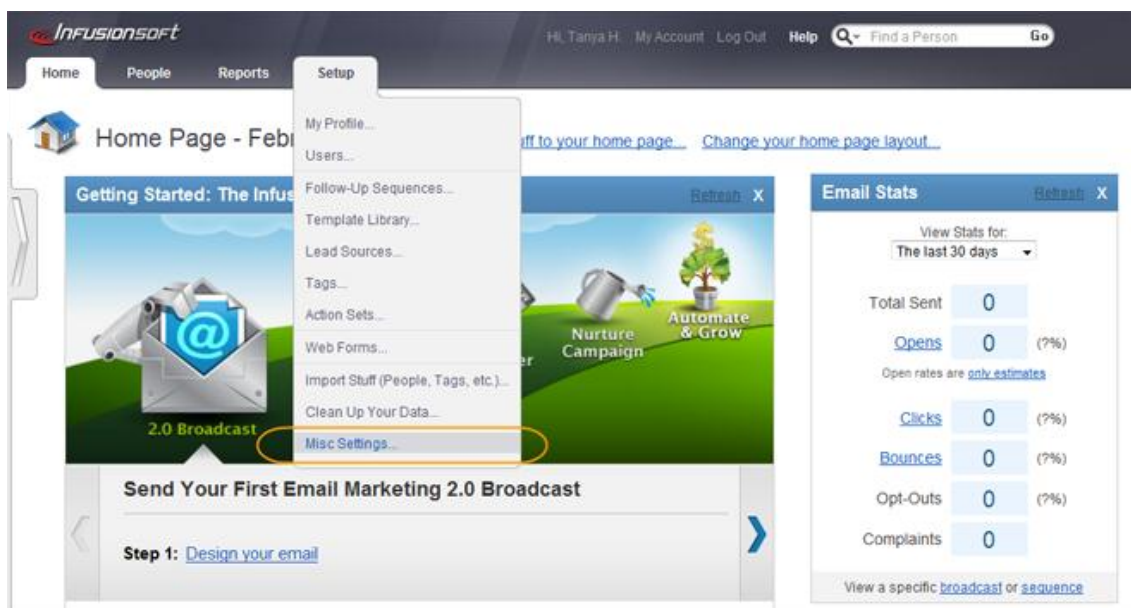

If you use Infusionsoft as your autoresponder, please follow the instructions below...

Step 1: Go to <https://yourdomain.infusionsoft.com/> and login to your "InfusionSoft" account.

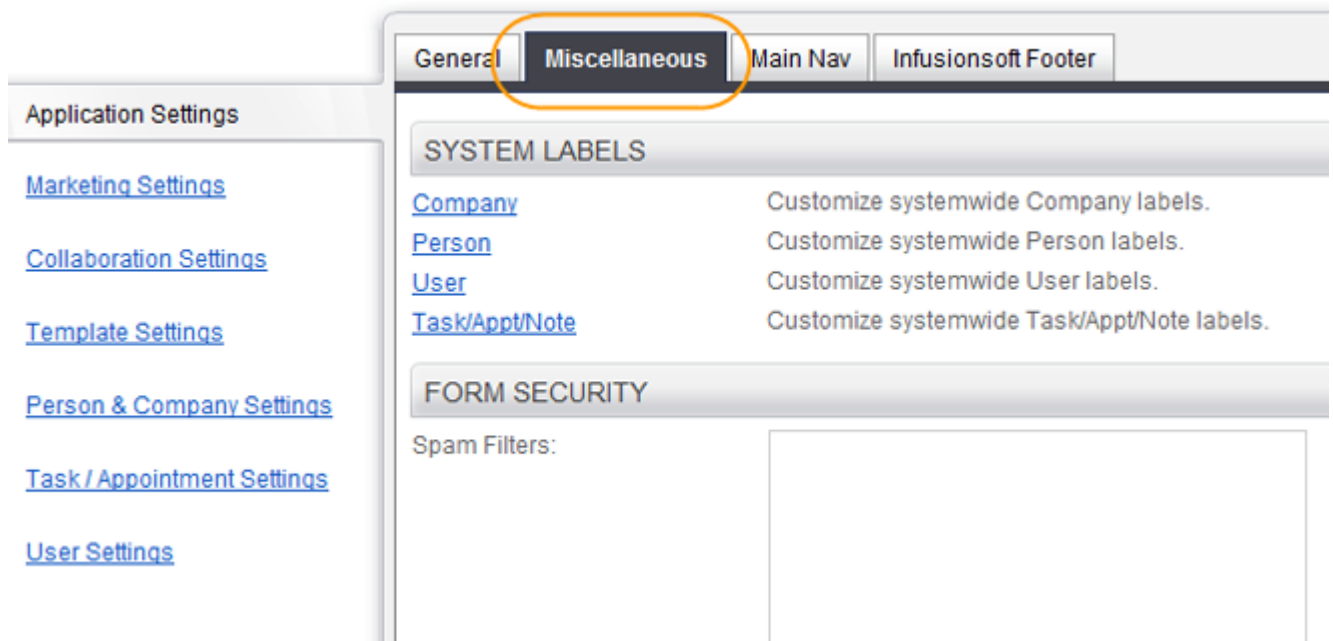

The image shows the Infusionsoft login page. At the top is the Infusionsoft logo. Below it are two input fields: "Username" and "Password". There is a checkbox labeled "Remember Me" and a "Login" button with a right-pointing arrow. Below the login button is a link that says "Forgot your Password?".

Step 2: Go to the "Setup" tab and choose "Misc Settings".

The image is a screenshot of the Infusionsoft dashboard. At the top, there's a navigation bar with "Home", "People", "Reports", and "Setup" tabs. The "Setup" tab is active, and a dropdown menu is open, showing options like "My Profile...", "Users...", "Follow-Up Sequences...", "Template Library...", "Lead Sources...", "Tags...", "Action Sets...", "Web Forms...", "Import Stuff (People, Tags, etc.)...", "Clean Up Your Data...", and "Misc Settings...". The "Misc Settings..." option is circled in orange. Below the navigation bar, there's a "Getting Started: The Infusionsoft 2.0 Broadcast" section with a "Nurture Campaign" and "Automate & Grow" graphic. To the right, there's an "Email Stats" widget showing statistics for the last 30 days: Total Sent (0), Opens (0), Clicks (0), Bounces (0), Opt-Outs (0), and Complaints (0). The bottom of the dashboard shows a "Send Your First Email Marketing 2.0 Broadcast" section with a "Step 1: Design your email" link.

Step 3: Select "Miscellaneous" from the "Application Settings".

Step 4: Scroll down to the "API" section. Enter the API Passphrase.

Step 5. Click on "Save".

Step 6: Go to your FusionHQ account. Go to "**Settings**" in the top right corner of the page.

Step 7: Click "**Autoresponder Integration**".

Step 8: Enter your saved "**Encrypted Key**" in the "**API Key**" box and then save your new settings.
