

# How to Use the Pop-up Page

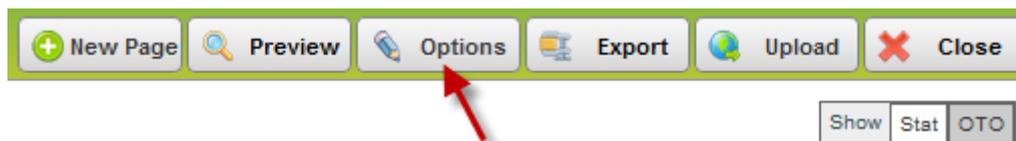

Want to have a pop-up page but you don't know the code structure? Don't worry. FusionHQ allows you to create the pop-up page with no code needed.

**Step 1:** Go to the funnel/content site where you want to activate the pop-up. Pop-up page cannot be applied to the content site.

Funnel Name	Views	Sales			
tutorials <a href="http://tester7.doubleexpert.com/tanya/tutorials">http://tester7.doubleexpert.com/tanya/tutorials</a>	56	11	Edit	Duplicate	Delete
Test payment Paypal <a href="http://tester7.doubleexpert.com/tanya/testpaypal/">http://tester7.doubleexpert.com/tanya/testpaypal/</a>	26	136	Edit	Duplicate	Delete
Test Payment 1ShoppingCart <a href="http://tester7.doubleexpert.com/tanya/1shoppingcart/">http://tester7.doubleexpert.com/tanya/1shoppingcart/</a>	1	0	Edit	Duplicate	Delete
Test Shopping Cart <a href="http://tester7.doubleexpert.com/tanya/shoppingcart/">http://tester7.doubleexpert.com/tanya/shoppingcart/</a>	2	0	Edit	Duplicate	Delete

**Step 2:** At the funnelmap / sitemap, click "Options" on the top right of the map.

**Step 3:** At the "Pop-up Settings", tick "Enable default popup script for all pages".

Funnel Options

Pop-up Settings (optional)

Enable default popup script for all pages

Type

Show pop-up on exiting page

Pop-up Content

Funnel: tutorial

URL: (The URL of the website that the popup will grab data from)

Occurrence

Always show *Exit pop-up will only trigger once with each visit*

Show up to 2 Times

Theme

Theme 3 >>

Width

auto Accepted value: 999px, 99% or auto

Height

auto Accepted value: 999px, 99% or auto

Opacity

70 % The higher the value, the darker the background

Save Cancel

**Step 4:** Make settings of the pop-up page with the details below. Then save.

*Type:* Select on when you want to show this pop up page. Upon entering or exiting the page.

*Pop-up Content:* set up the pop-up page

*Funnel:* select the ready-made funnel page from the dropdown menu. The start page of the funnel will be used.

*URL:* input the url of the specific page. It could be an external url

*Occurrence:* schedule the display of the pop-up

*Always show:* display pop-up page each time the page is visited

*Show up to...Time(s):* specify the number to display the pop-up page for the same visitor

*Theme:* choose the theme of the pop-up page. Currently there are 6 themes

*Width:* enter the width of your page

*Height:* enter the height of your page

*Opacity:* set up the transparency of the background. Higher value causes darker background

Pop-up Settings (optional)

Enable default popup script for all pages
