

How to Verify Your Domain With FusionHQ Hosting

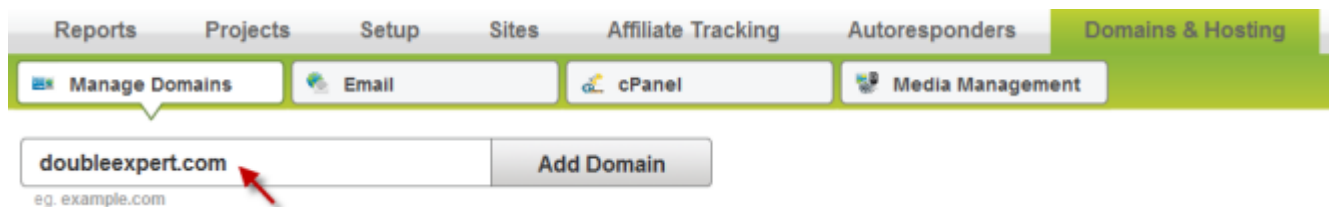

If you buy your domains from other providers but still want to use FusionHQ hosting, make sure that your FusionHQ account does have hosting.

If you've hosted your domains with another provider, you need to point the name servers to FusionHQ first. If you don't know how to change the name server, please contact your current hosting provider.

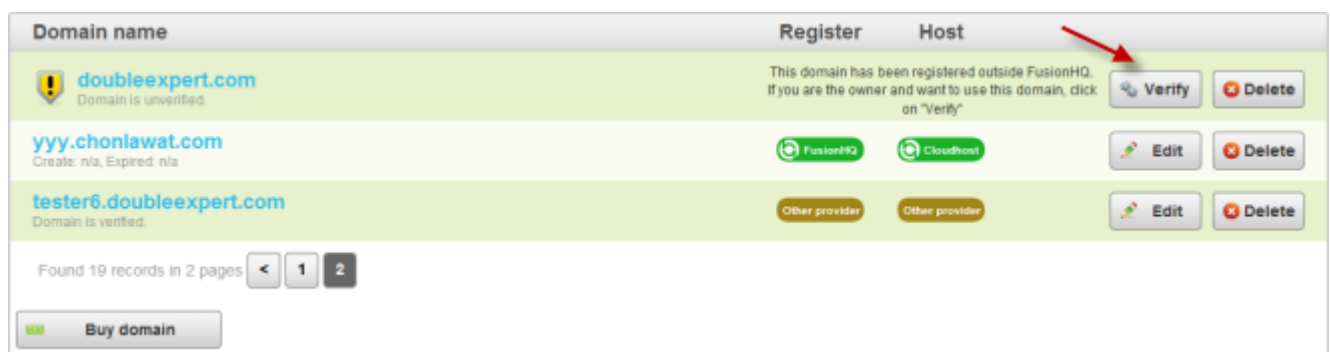

NS1.FUSIONHQDOMAINS.COM
NS2.FUSIONHQDOMAINS.COM

Then follow the instructions below.

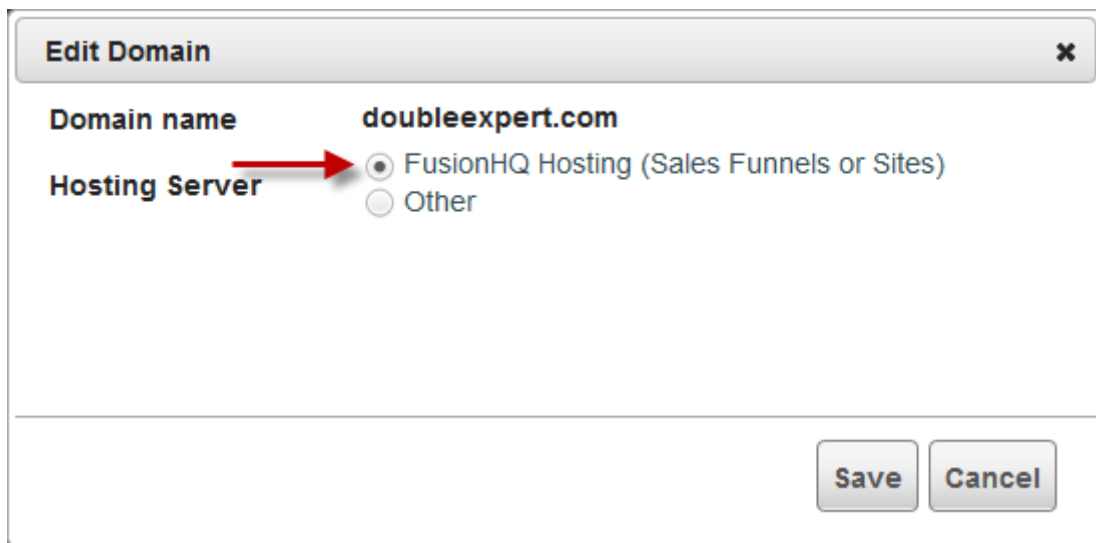

Step 1: Go to "Domains & Hosting" and then "Manage Domains". Type in your domain in the "Add Domain" box.

Step 2: Click "Verify".

Step 3: Tick "FusionHQ Hosting" and click "Save".

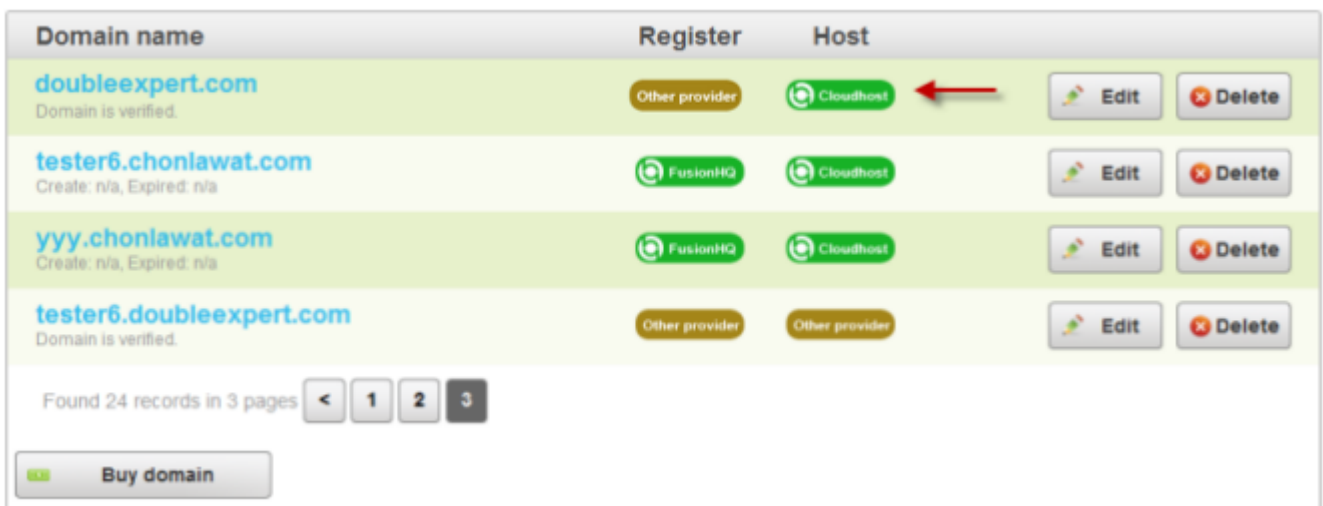

Edit Domain [X]

Domain name doubleexpert.com

Hosting Server FusionHQ Hosting (Sales Funnels or Sites)
 Other

Save Cancel

Step 4: Your domain is now verified.

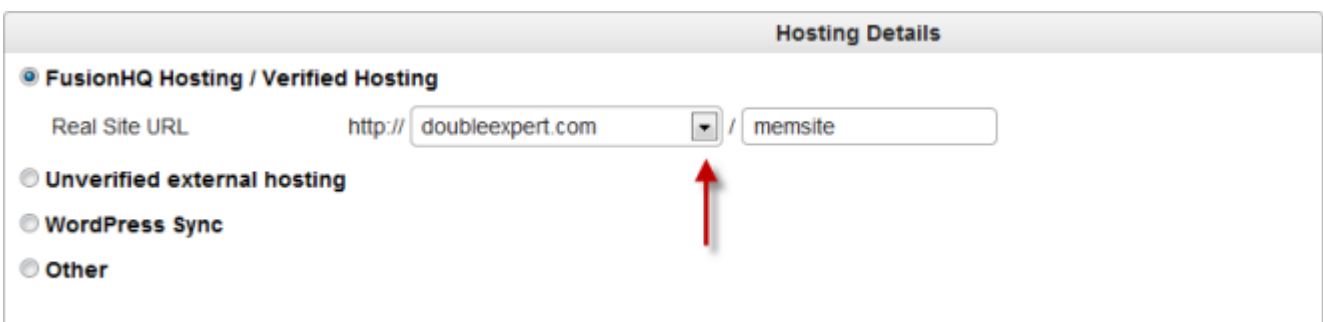

Domain name	Register	Host		
doubleexpert.com Domain is verified.	Other provider	Cloudhost	←	Edit Delete
tester6.chonlawat.com Create: n/a, Expired: n/a	FusionHQ	Cloudhost		Edit Delete
yyy.chonlawat.com Create: n/a, Expired: n/a	FusionHQ	Cloudhost		Edit Delete
tester6.doubleexpert.com Domain is verified.	Other provider	Other provider		Edit Delete
